# FINE ART STUDIO

Art studio is a room space wherein one carries out creative art works. It is a building which contains suitable fixtures for artwork making. A major fixture that must be contained in an art studio is a drawing board with its stand, and a seat. Another fixture necessary in an art studio is a shelf. The shelf would contain books on different art topics for referencing. A cupboard for containing tools and materials needed for the making of artworks is also very much necessary.

The room also has to be well lighted. A table would also be needed. The room ought to be kept tidy. All the tools and materials should be kept in groups for easy retrieval.
