PAPER CRAFT

Craft implies skills or products made from a particular skill. However, the word craft as it is often used implies skills of making things with the bare hands with or without any mechanical means. Craft usually yield products of beauty or of use or both.

Paper craft is the skill of using paper to form objects of beauty or use. The main material used here is paper. There are different kinds of papers: cardboard papers, emboss papers, etc. and they exist in different colours. Also, cartons are made of papers.

Papers could be used to make boxes, houses, greeting cards, fancy bags, fancy shoes, fancy caps, sculpture, etc.
